## Academic Projects

---

- **Digital Attendance (Android Application) - Self Project (Summer-2017)**  
It's an android app to facilitate the ease of attendance marking which is based on the concept of **GPS location**.Along with this there is an additional app(**Attendance Report**) to generate report for this app.  
In this project **Google Firebase** has been used for database.  
Project codes can be accessed here :  
Github link : <https://github.com/sujeet1365/Digital-Attendance>

- **Technoshine X.6 (Android Application) - Technical Club Project (Summer -2016)**  
It's an android app developed for college club(Center For Application Development Club)  
Tech-fest , NIT Durgapur.  
This App is live on play store and can be accessed from the following link-  
Play Store link : <https://play.google.com/store/apps/details?id=com.cad.tsx6&hl=en>
- **Android App (Camera API) - Self Project(August -2017)**  
In this app I have integrated Camera using Camera API and saving the image and also generating a **txt** file of user details and saving these files to internal storage . And fetching the list of saved images on a listView.  
Project codes can be accessed here :  
Github link : [https://github.com/sujeet1365/ANDROID\\_APP](https://github.com/sujeet1365/ANDROID_APP)
- **One Stop Form Suggestion (Web-Project) - College Project (February-2017)**  
It is a website designed to help the students to access entrance examination forms link and informations, all at one place.  
Project codes can be accessed here :  
Github link : <https://github.com/sujeet1365/OneStopFormSuggestion>

## Work Experience

---

- **Intern at Master Logix Corporate Solutions,Lucknow (Winter-2016)**  
Worked on a **Chatting Android** application that uses **Google Firebase** database to create a chat application and a real-time database to store chat messages.  
Github link : <https://github.com/sujeet1365/Chat-Application>
